- Time Management
- Fast Learner
- Adaptable
- Problem Solving
- Word
- Excel
- English

ABOUT ME

I am a junior programmer with an educational background in computer science. I have made several projects in the assignments given by the campus, including creating websites (HTML), developing mobile applications, and also several games. My best quality is being able to work with a team and being able to communicate within team. I have skills in web development and game development. I'm ready to jump into the professional world and take technological innovation to the next level.

EMPLOYMENT HISTORY

Packing, Bravo Creative Studio (July 2021 - August 2021)

I work to gain experience even if only for one month. During that one month, I learned how to communicate well between teams, how to work together in a team, and also how to appreciate the time I have used. In one month I have gained many soft skills that can be used in a tougher world of work

INTERNSHIP

Network Administrator, RAHAJASA MEDIA INTERNET (RADNEXT) (March 2019 - August 2019)

I did an internship as a network administrator there, at RADNEXT I learned how to manage networks properly, then the importance of communicating with each other, and how to be able to trust each other in projects within a team.

Programming Teacher, SMAK St. Yoseph Denpasar (August 2022 - September 2022)

i teach at school st. yoseph Denpasar, every weekend, starting from August 27 to September 10 2022. While teaching at this school, I gained valuable experience, such as how to be more confident when teaching in front of students, then how to divide teaching tasks, and etc.

EDUCATION

- University Bina Nusantara (2021-2025)
- SMKK St. Louis (2018-2021)
